

SDHI and Varex Imaging Corporation sign agreement to manufacture Cargo and Vehicle Inspection Systems in India

Mumbai, Monday, 4th August 2025: Swan Defence and Heavy Industries Limited (SDHI) and Varex Imaging Corporation have signed an agreement to manufacture cargo and vehicle inspection systems in India. Varex Imaging Corporation based in Salt Lake City, UT, USA, is a global leader in linear accelerators and imaging technology, known for its innovative and dependable solutions.

As part of the collaboration, SDHI will exclusively manufacture Varex's high-energy imaging systems at its facility in Pipavav, Gujarat. These systems are designed to inspect all types of cargo at both land and sea ports. This strategic partnership will help meet the growing demand for advanced inspection systems among security agencies across India. Additionally, it supports the Make in India initiative by promoting indigenous manufacturing and enabling access to world-class security imaging solutions.

SDHI is a leading shipbuilding and heavy fabrication company in India. The shipyard operates the country's largest dry dock (662m x 65m) and has an impressive fabrication capacity of 144,000 tons per annum – providing an unmatched advantage in fulfilling India's maritime and industrial ambitions.
